

### Product Description

MOKA Cleaner is the solution to the main maintenance problems of coffee machines and electric kettles.

MOKA enters the normal working cycle of such equipment, removing limestone, residues and mold. Its formula is specially designed and tested to unwrapping the water tank and nozzles without damaging them, ensuring the cleanliness of the whole device. Its constant use generates a protective film that prevents the formation of new fouling and the growth of algae.

MOKA is produced with Food Grade raw materials so any product residues in the equipment do not pose a danger to the customer.

### Characteristics

- Suitable for the HCCP plan.
- NSF certified (A3).
- It does not damage household appliances.
- It prolongs the life of the coffee machine, ensuring the taste of coffee.
- Disrupts action in limestone.

### Application in coffee machines

1. Remove the filter inserted into the water tray.
  2. Put a 250 mL dose of MOKA per litre of volume into the water tank.
  3. Fill the tank by adding more water until the container is fully filled.
  4. Turn on the coffee machine and dispense hot water from the "hot water/steam" nozzle until to fill a cup, according to the specific instructions of the machine itself.
  5. Turn off the machine and let MOKA act for about 10 minutes.
  6. Dispense water until the tank is completely empty.
- NOTE: For particularly encrusted machines, with persistent deposits, repeat the operation.
7. At the end of the cleaning cycle, carefully rinse the tank.
  8. Fill the tank only with clean water.
  9. Turn on the coffee machine and dispense hot water from the "hot water/steam" nozzle until to fill a cup.
  10. Turn off the machine and wait about 10 minutes.
  11. Dispense water until the tank is completely empty.

Please note it is necessary to rinse with tap water after use.  
We recommend that you perform the cleaning of the machine at least once a month.

### Packaging available

Art.-Nr.	AB1081.K.01	AB1081.P.01	AB1081.D.01
Packaging	1L Flacon with plug	5L Jerry Can	10L Jerry Can
Dilution	Ready to use	1:4	1:4
Pcs. per packaging	6	2	1
Packaging (L x H x D cm)	25,5 x 17 x 33,5	29,5 x 19,5 x 28	28 x 25,5 x 34
Pcs. per pallet (80 x 120 x H 200cm)	570	168	48

The triggers, bottles and jerry cans are completely plastic, 100% recyclable.
