

### Product Description

SMOKI is the innovative odour remover developed by Errecom to eliminate cigarette smoke from surfaces and rooms.

Thanks to its special formulation, SMOKI does not cover up the odour but incorporates it irreversibly, purifying the environment in which it is dispensed. It does not damage fabrics or materials and has long-lasting effect.

The handy trigger format makes its application easy and fast, whether directly on the surfaces to be treated or in the air to be purified. It acts quickly, leaving a pleasant scent.

Before use, carefully read the warnings contained on the safety data sheet. Do not apply directly to lit cigarettes.

### Features

- Professional use.
- Ready to use.
- Does not cover the odour but incorporates it irreversibly.
- Long-lasting effect.
- Safe for materials and surfaces.

### Surface treatment with trigger spray bottle

1. Place the dispenser 30 cm from fabrics and surfaces to be treated.
2. Dispense the product in such a way as to cover the area with a thin layer.
3. Let the product act for a few seconds.
4. Does not require rinsing.

### Interior and cockpit treatment

1. Dispense Smoki upwards in proportion to the intensity of the odour to be treated.
2. Let Smoki act for a few seconds, so that it purifies the air contaminated by unpleasant odours.
3. It is not necessary to ventilate the room after use.
